

İspak Ambalaj

Sustainability Policy

At İspak Ambalaj we are aware of our responsibility to create benefits for society in environmental, social and governance areas in line with the United Nations (UN) Sustainable Development Goals and therefore, we position sustainability as a way of doing business. This responsibility guides us in all our business decisions. To meet the needs of future generations, from today onwards, we will continue with our activities in this direction without any interruption

Environmental Sustainability

We have adopted the principle of minimizing our environmental footprint and promoting environmental management throughout our operations and supply chain.

In line with our goal of compliance with the circular economy, we optimize the use of all kinds of resources included in our business processes, like materials, energy and water.

- With the management processes we have established regarding energy efficiency and the use of renewable energy, we strive to reduce greenhouse gas emissions and mitigate the effects of climate change within our own ecosystem.
- We minimize landfill waste by prioritizing waste reduction, reuse, recycling and responsible disposal practices.
- We supply materials responsibly by prioritizing sustainable and certified resources to protect ecosystems and biodiversity.

Product and Innovation

As İspak Ambalaj; we aim to reach a highly competitive position by being innovation-centered, developing innovative products, easily adapting to new technologies and systems in all our processes from product safety to customer satisfaction, and also aim to grow on a global scale.

- We strive to understand and respond to our customers' sustainability preferences/needs through innovative and sustainable packaging solutions.
- We communicate openly and transparently about our sustainability initiatives, goals and performance.

- We collaborate with stakeholders to promote sustainable practices throughout our value chain and contribute positively to the communities in which we operate.

Social Sustainability

At İspak Ambalaj, we have adopted a working culture focused on unity and sharing, in line with Kibar Holding's "WE" understanding, which symbolizes success and the power of sharing life. To this end, we are committed to increasing social well-being and promoting ethical practices within and outside our organization.

- We prioritize the health, safety and well-being of our employees through safe working conditions, training and development opportunities.
- We create a diverse and inclusive workplace environment that respects and values differences and promotes equality and justice.
- We engage with communities, understand their needs and make positive contributions through philanthropic initiatives and volunteering.
- We maintain ethical standards in all aspects of our business operations, including value chain management and customer relations.

This Sustainability Policy is integrated into our business strategy and operations through our Sustainability Management. We are committed to:

- Setting measurable goals and objectives to track our progress.
- Regularly reviewing and updating our sustainability initiatives to ensure continuous improvement.
- Reporting transparently to our stakeholders on our sustainability performance.

By adhering to this policy, İspak Ambalaj aims to set an example in sustainability, create value for our stakeholders and contribute to a sustainable future for future generations.

İspak Ambalaj Sustainability Policy will be announced to all our employees and is open to public and third party access.
